

CENTRE FOR REMANUFACTURING & REUSE

Remanufacturing -
good business for a
low carbon economy.

Inaugural International Remanufacturing Congress

Save the date:

2nd – 4th March 2010

Location:

**Leamington Spa,
Warwickshire, UK**

Event Organisers:

The Centre for Remanufacturing and Reuse

Chair: Dr Kerry J Mashford

Objectives:

- Raise the profile of remanufacturing and associated business models as low-carbon, resource efficient and economically attractive options for manufacturers, procurers, and policy makers.
- Link / share experiences across the EU and globally.
- Develop a vision of the future of remanufacturing and what needs to be done to maximise societal, economic and environmental benefits.

Speakers include:

Walter Stahel, co-founder of the Product-Life Institute Geneva

Ken Hoefling, General Manager - Remanufacturing (Asia Pacific) at Caterpillar

Andy Harrison, Chief Life Cycle Engineer at Rolls-Royce

Sarah Eppel, Head of Sustainable Procurement at Defra

Optional remanufacturing visits.

All participants will need to register to attend.
Full invitation details including agenda will follow.
